Salad processing equipment

# Salad processing equipment

## Salad / vegetable processing

### Products

Lettuce and cabbage, herbs and various diced vegetables, fruits and berries.

### Usage

Equipment for complete post harvest processing from tipping the crates / bins of raw product through inspection, trimming, grading, sorting, cutting, washing, dewatering and mixing of the product before delivery to your packing line and waste management systems.

### Scope of manufacture

From single pieces of equipment, to suit your current process line, through to individually customised lines.

With extensive experience in this field and more than 150 installations worldwide you can be assured of the highest quality fabrication and supply using food grade materials and the highest attention to maintenance and plant safety.

### Contacts / personnel

At Tripax, our sales staff have more than 100 years experience between them and our engineering team more than 50 years of combined experience giving- a solid foundation for your next tailor made solution.
