

Cabbage segmenter

- Capacity: 10-12 cabbages per minute
- Products; Whole cabbage heads

Machine Description:

This machine is designed to cut cabbage heads into segments quickly and safely.

The removable cutting grid is available in 2, 4 or 6 segments.

The operator positions a cabbage on the cutting grid and pushes the start button which will activate the sliding safety door/s which have safety interlocks fitted.

When doors are closed the pneumatic ram will push the cabbage through the knife grid.

The cut segments fall through onto the discharge elevator.

Made from stainless steel and food grade plastics to ensure a long trouble free life.

Cabbage coring, dicing, shredding, washing etc. is available—Please ask for a brochure.
