

Cheese Shredding

➤Product: Cheese, butter, copha, etc.

➤Capacity: up to 2500 kg per hour

Process Description:

Cheese lines can be manufactured to suit each individual need. Systems can include shredders, graters or dicers or combinations thereof.

A line can be provided with tumble drum and powder dispensers. Conveyors, auto infeed conveyors, cleated conveyors etc are made to suit and are made of food grade belting in an open, hygienic design to facilitate easy

wash-down with no catchment points for product build up.

Lines can be controlled from one point with speed variation as required.

Made from stainless steel and food grade materials to Australian safety standards. Guards and covers are interlocked where necessary.
