

Cutting

Bean cutter

- Product: Green beans, carrots, asparagus, potato batters.
- Capacity: 1 to 1.8 tonne per hour

Machine Description:

Designed for the cross cutting of green beans with a maximum length of 200 mm. As cuts are measured from one end only the first cut is always full length giving a good yield.

Cut sizes: Multiples of 10 or 13 mm

Product is fed onto the centre plate and is distributed to the pockets which then pass through the knife grid set for the desired cut size.
Cut beans are discharged via a chute underneath the machine for further grading or processing.
Made of stainless steel materials to food industry standards.
